# **Financial Narrative**

# April 2020

The financial narrative discusses the financial operating performance of Washtenaw Community College for fiscal year 2019-20, the ten months ended April 30, 2020.

#### Revenue

As of April 30, 2020, Total Revenues were \$106.4 million; Total Expenditures and Operating Transfers were \$88.9 million. Revenues in total are trending slightly behind of the expected budget for the first ten months of the fiscal year.

Due to the COVID-19 pandemic, Spring tuition and fee revenue is behind the estimated year-to-date budget by approximately \$800,000. The College has implemented a number of strategies to connect with students and explore online learning and virtual classroom learning options. A concerted effort across campus to bolster enrollment for the Spring term is ongoing.

State Aid revenue reflects ten months of the annual appropriation for the fiscal year, along with a partial payment of approximately \$340,000 from the Local Community Stabilization Authority (LCSA), (the make whole mechanism for lost personal property tax revenue). Consistent with prior years, the remaining LCSA payment is anticipated to be received in May. Additionally, payments from the State to offset increases in the cost of the MPSERS pension plan have continued to push the year-to-date revenue ahead of budget. The College is currently monitoring the impact, if any, that the loss of revenue at the State level may have on remaining payments due to the College.

Receipts for Local Government Taxes are \$54.7 million through April, which represents 97.8 percent of the total budgeted revenue from property taxes and is slightly ahead of projected collections. Refunds of prior year taxes continue to trend below budget and in conjunction with a better-than-expected increase in taxable values, FY 2020 tax revenue is forecasted to exceed budget by \$500,000.

The COVID-19 pandemic has also had a significant impact on a number of other revenue areas for the College. Interest rates have fallen to close to zero and as a result, the College's short-term investment strategy has fallen behind budget expectations. Contract training and community enrichment courses are often face-to-face classes and as such are not able to be offered at this time. The conference center has cancelled all of its events for the foreseeable future. The College expects these variances, among others, to be permanent and are reflected as such in the accompanying Statement of Revenue and Expenditures.

### **Expenditures**

Total Expenditures through April 30, 2020, represent 79 percent of the budgeted expenditures for the fiscal year. Overall expenditures are approximately \$1.5 million less than what was expected through the first ten months of the year. This is due in large part to a positive personnel-related variance stemming from vacancies in full-time and part-time positions. For the year, vacancies in full-time positions were budgeted to provide savings of approximately \$2 million, based on an average of 20-25 vacant positions per month. Actual vacancies averaged 27 per month for the first ten months of the year, slightly higher than the budget. As the year progresses, the various divisions will show a positive variance to budget and the General Administrative category, which holds the budgeted vacancy savings, will reflect an over-budget condition. Direct costs are also trending slightly lower than the expected budget through April 30, 2020. Given cost constraint initiatives the College has put into place, we expect these variances will become permanent.

Washtenaw Community College Revenues and Expenditures - General Fund Statement as of April 30, 2020
