**I. Assessment Results per Student Learning Outcome**

Outcome 1: Demonstrate complex modern warm-up exercises.

- Assessment Plan
  - Assessment Tool: department review of videotape
  - Assessment Date: Winter 2008
  - Course section(s)/other population: one
  - Number students to be assessed: all
  - How the assessment will be scored:
  - Standard of success to be used for this assessment:
  - Who will score and analyze the data:

1. Indicate the Semester(s) and year(s) assessment data were collected for this report.

Fall (indicate years below)	Winter (indicate years below)	SP/SU (indicate years below)
	2015	

2. Provide assessment sample size data in the table below.

# of students enrolled	# of students assessed
8	8

3. If the number of students assessed differs from the number of students enrolled, please explain why all enrolled students were not assessed, e.g. absence, withdrawal, or did not complete activity.

All DAN 102 students were evaluated/this class is cross-listed with DAN 101.

4. Describe how students from all populations (day students on campus, DL, MM, evening, extension center sites, etc.) were included in the assessment based on your selection criteria.

5. Describe the process used to assess this outcome. Include a brief description of this tool and how it was scored.

scored-highly successful attempt, successful attempt, unsuccessful attempt, and no attempt

6. Briefly describe assessment results based on data collected for this outcome and tool during the course assessment. Discuss the extent to which students achieved this learning outcome and indicate whether the standard of success was met for this outcome and tool.

Met Standard of Success: Yes

90% of the students achieved successful attempts or better on all 5 of the complex warmups.

7. Based on your interpretation of the assessment results, describe the areas of strength in student achievement of this learning outcome.

The warm up exercises are repeated in every class and then applied to dance phrases. These were very successfully demonstrated. Utilizing repetition in the learning of movement is extremely beneficial and led to the success rates of the students.

8. Based on your analysis of student performance, discuss the areas in which student achievement of this learning outcome could be improved. If student met standard of success, you may wish to identify your plans for continuous improvement.

I will continue to use the repetition of the exercises in learning process.

Outcome 2: Demonstrate complex modern dance steps and how they apply to phrases of movement.

- Briefly describe assessment results based on data collected for this outcome and tool during the course assessment. Discuss the extent to which students achieved this learning outcome and indicate whether the standard of success was met for this outcome and tool.

Met Standard of Success: <u>Yes</u>
94% of the students were successful in demonstrating the 15 complex steps. The learning outcome standard of success was achieved.

- Based on your interpretation of the assessment results, describe the areas of strength in student achievement of this learning outcome.

A high percentage of students scored well in this outcome. They were able to demonstrate the more complex dance steps in a dance. This is the artistic component and is often the more difficult outcome to achieve.
--

- Based on your analysis of student performance, discuss the areas in which student achievement of this learning outcome could be improved. If student met standard of success, you may wish to identify your plans for continuous improvement.

Time to practice and be comfortable with the steps is the biggest challenge for both the students and myself as the instructor. Time management is the biggest factor that affects this outcome.
