Transfer and University Parallel Programs

If your goal is to continue your education toward a baccalaureate degree, then transfer and university parallel programs is the track for you. Complete the first two years of study in a supportive environment with small classes and personal attention.

Before beginning any transfer program, a student should consult with an academic advisor or counselor to obtain a program articulation agreement or a transfer guide. Early in the program, the student should contact an undergraduate advisor at the transfer college for specific admission and curriculum requirements and, if available, an unofficial transfer-credit evaluation.

Copies of articulation agreements and transfer guides are available in the Counseling Office on the second floor of the Student Center Building. Computers with access to the Internet Web sites of four-year colleges and universities are also available there.

Liberal Arts Transfer

This program of study can be individualized to meet your needs or the requirements of the transfer college or university.

Rationale for proposed changes or discontinuation:

Creating a Communication Studies pathway is crucial for WCC students to achieve their educational goals. The benefits for creating a Communication Concentration is as follows:

1. The concentration will provide a direct pathway for students to transfer.

2. The competencies employers demand based on AACU (and others) in problem-solving, soft skills and analytical skills are achieved through successful completion of Communication courses.

3. The formal establishment of this concentration would not require immediate development of new courses.

4. The proposed pathway courses transfer to Eastern Michigan University, where the majority of WCC students transfer.

5. The proposed courses for the concentration are:

   COM 102 Interpersonal Communication

   COM 160 Voice and Articulation

   COM 183 Persuasion

   COM 210 Non-Verbal Communication

   Com 225 Intercultural Communication

Total	30 - 33 credits	Total	30 credits

Please review each General Education Area in the chart below, and record the needed changes in the chart and on the attached semester layout.

REQUESTED CHANGES
General Education Area
English Composition – The requirement for one writing/English composition course remains the same. No changes will be made unless specifically requested below. (Use Writing Elective or ENG 111) Optional Change:

2nd Course in English Composition or one course in Communication
WCC previously required both a second composition/writing course and a communication course. Your options are:
  1. Allow students to select any course that meets composition/writing or communication (*recommended*).
  2. Require students to take a specific composition course (identify course below and on semester layout).
  ③ Require students to take a specific communication course (identify course below and on semester layout). COM 101 Fundamentals of Speaking

Requested Change:

2nd Course in English Composition or one course in Communication Credit Hours
Because of this change, an extra 3 – 4 credit hours may be available in the program. Please specify how you would like to use those credit hours. Your options are:
1. Reduce the number of credit hours if the program total is over 60 *(recommended)*.
2. Replace the course with elective credits as needed to reach a minimum of 60 credit hours.
3. (circled) Add a specific program-related course *(please add the course in the semester it should be taken on the semester layout)*.

Requested Change: Eng 226 COMP II

Mathematics – The requirement for one mathematics course remains the same. However, the courses that meet the MTA requirement have changed slightly. MTH 148, 149 and 167 do not meet the general education requirement for AA or AS degrees. Please identify an alternate course or list "Math elective".

Optional Change:

Natural Sciences from 2 disciplines including one lab course
WCC previously required one natural science course. Your options are:
1. No change needed – a second natural science course is already included in my program.
2. Add a second natural science course in the semester shown on the semester layout attached. Unless specific courses are required, include one course identified as a lab science course.

Requested Change:

Social & Behavioral Sciences from 2 disciplines – The requirement for two social and behavioral science courses remains the same. No changes will be made unless specifically requested below.

Optional Change:

Arts & Humanities from 2 disciplines – The requirement for two arts and humanities courses remains the same. No changes will be made unless specifically requested below. (Note: A department can designate a COM course as a requirement here. The same course cannot be counted in two areas.)

Optional Change:

Computer and Information Literacy
The requirement for computer and information literacy has been removed. Your options are:
1. Continue to require a specific computer course. If a specific course is required in your program, we will leave it there. If you previously used "Computer and Information Literacy Course," you will need to specify either a specific course or a list of courses from which to choose.
2. Remove the computer and information literacy course if the program will still meet the minimum of 60 credit hours.
3. (circled) Remove the computer and information literacy course and replace the course with elective or other credits as needed to meet the minimum of 60 credit hours.

Required Change: 2nd Communication Course (other than Com 101)

Elective Credits to reach a minimum of 30 credit hours – A course titled "General Education Credit(s) to Reach a Minimum of 30 Credit Hours" will be created and then added as needed to the program.

Directions:

1. Attach the current program listing from the WCC catalog or Web site and indicate any changes to be made.

2. Draw lines through any text that should be deleted and write in additions. Extensive narrative changes can be included on a separate sheet.

3. Check the boxes below for each type of change being proposed. Changes to courses, discontinuing a course, or adding new courses as part of the proposed program change, must be approved separately using a Master Syllabus form, but should be submitted at the same time as the program change form.

Requested Changes:

☐ Review
☒ Remove course(s): _elective_
☒ Add course(s): _2nd Natural Science for MTA_
☐ Program title (title was _____)
☐ Description
☐ Type of award
☐ Advisors
☐ Articulation information

☐ Program admission requirements
☐ Continuing eligibility requirements
☐ Program outcomes
☐ Accreditation information
☐ Discontinuation (attach program discontinuation plan that includes transition of students and timetable for phasing out courses)
☐ Other _____

Show all changes on the <u>attached page from the catalog</u>.

Rationale for proposed changes or discontinuation:

AALAT needs to be updated, in order to be in compliance with MTA agreement. A second natural science course will be added to fourth semester, which will reduce the number of general elective credits required.
