COURSE OBJECTIVES: Use student outcome based language and format. (Example: The student will define and state the cause of the six major respiratory diseases.) List as many as needed.

Objective #1. Student will complete with instructor, placement office, and employer the following forms: student eligibility form, student agreement, work agreement, student learning objectives/assignments, student evaluation, and student self-assessment report on CO-OP experience.

Objective #2. Student will complete the CO-OP work experience according to guidelines.

Objective #3. Student will maintain a weekly log of duties.

Objective #4. Student will meet with faculty advisor at times individually arranged at the beginning of the work assignment.

Objective #5. Student will complete a final report on the CO-OP experience including the following: description of the assignment, summary of skills and abilities used on the job, ways in which course work was integrated into job tasks, and assessment of how well the objectives established at the beginning of the assignment were achieved.

MAJOR INSTRUCTIONAL UNITS: (List as many as needed)

1. Complete all required forms.2. CO-OP work experience.3. Maintain weekly log of duties.4. Meet with faculty advisor.5. Complete a final report.

INSTRUCTIONAL METHODS:

1. On-site work experience.2. Conferences with advising instructor.

SUGGESTED EVALUATION CRITERIA: (which may be appropriate to grade student.)

WASHTENAW COMMUNITY COLLEGE
COURSE HANDOUTS

The following information compatible with the Official Course Syllabus must be distributed to students at the first meeting of each course:

1. Course name:
2. Course number:
3. Course description:
4. Course objectives:
5. Required text(s) and/or supplies:
6. Criteria for evaluation:
7. Requirements (Attendance, Special, or Other):
8. Hours/week required out of class:
9. Additional information:
10. A tentative schedule by week or class meeting of topics to be covered:

Each Instructor may design his/her own course handout within these guidelines.

COURSE SUMMARY

COURSE TITLE: CO-OP Education II

COURSE NUMBER: MTT 274

CREDITS: Varies: 1 to 3

PREREQUISITE: MTT 174; MTT 174 can also be a corequisite.

DESCRIPTION:

In this course the student gains from a new experience in an approved, compensated, industry-related position. Together with the instructor, the employer, and the CO-OP Placement Office, the student determines work assignments and learning objectives to connect classroom learning with career-related work experience. This is the second of two CO-OP courses.

COURSE OBJECTIVES:

During this course, the student will:

1. Complete with instructor, placement office, and employer the following forms: student eligibility form, student agreement, work agreement, student learning objectives/assignments, student evaluation, and student self-assessment report on CO-OP experience.
2. Complete the CO-OP work experience according to guidelines.
3. Maintain a weekly log of duties.
4. Meet with instructor according to individually determined schedule.
5. Complete a final report on the CO-OP experience including the following: description of the assignment, summary of skills and abilities used on the job, ways in which course work was integrated into job tasks, and assessment of how well the objectives established at the beginning of the assignment were achieved.

✓

MTT 203: Machine Tool Operations and Set-Up II 4 Credits

Prerequisites: MTT 202

Corequisites: None

45 lecture, 45 lab, 0 clinical, 0 other, 90 total contact hours

Fulfills Core Elements: None

This course is a continuation of MTT 202. The study of materials will be more advanced along with the techniques of measurement and blueprint reading. The technology of metal cutting, dimensional metrology, and special processes will also be introduced. The student's "hands-on" experience will include multiple lead threading, external grinding, E.D.M. machining, using the C.M.M., and producing a helical gear. Students who have experience equivalent to MTT 202 may contact the instructor for permission to waive the pre-requisite.

MTT 210: Machine Tool Technology 4 Credits

Prerequisites: MTT 203

Corequisites: None

45 lecture, 45 lab, 0 clinical, 0 other, 90 total contact hours

Fulfills Core Elements: None

This course is a continuation of MTT 203. It is also the last and most advanced machine tool technology course. Therefore, the most advanced information on materials, blueprint reading, measurement, metal cutting technology, and special processes will be covered. Along with that, the student will prepare a resume that will include his/her newly acquired proficiencies and well thought-out goals. The student's "hands-on" experience will include acme threading, internal grinding, E.D.M. machining, using the C.M.M., and producing a pair of bevel gears. This course was previously MTT 201. Students who have experience equivalent to MTT 203 may contact the instructor for permission to waive the pre-requisite.

MTT 274: MTT Co-op Education II 1-3 Credits

Prerequisites: MTT 174 and Consent required

Corequisites: None

0 lecture, 0 lab, 0 clinical, 120 other, 120 total contact hours

Fulfills Core Elements: None

Students are placed in an approved work experience to gain skills and knowledge offered by the employer. Together with the instructor and the employer, students set up work assignments and learning objectives to connect classroom learning with career-related work experiences. ~~Instructor consent is required to register for this course.~~

Mathematics

MTH

MTH 010: Arithmetic 3 Credits

Prerequisites: None

Corequisites: None

45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours

Fulfills Core Elements: None

This course is for students having difficulty with arithmetic. Topics include whole numbers, common fractions, decimal fractions, percents, and applications of arithmetic. Hand calculations are emphasized, however, work with calculators and computers is included. The course is offered only in an individualized format using a Satisfactory/Unsatisfactory grading system. This course may not be repeated for additional credit. Students are required to supply their own handheld calculators.

MTH 011: Solving Equations 3 Credits

Prerequisites: None

Corequisites: None

45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours

Fulfills Core Elements: None

This course is for students having difficulty solving mathematical equations. Topics include: properties of real numbers, signed numbers, simplifying algebraic expressions, and solving simple equations. Work with computers is used to enhance the understanding of these concepts. The course is offered only in an individualized format using a Satisfactory/Unsatisfactory grading system. This course may not be repeated for additional credit. Students are required to supply their own handheld calculators.
