

As part of the application process, MCOLES requires all applicants have their fingerprints taken via LIVESCAN. Attached you will find the RI-030. (LIVESCAN Fingerprint Background check request)

Please fill out the RI-030 and take it to either an approved private vendor or a law enforcement agency that is able to fingerprint using the Law Enforcement Academy (LEA) code in LIVESCAN. A list of approved private LIVESCAN vendors has been provided for you.

If you choose to do this at a law enforcement agency you should call ahead to make sure their LIVESCAN system has the "LEA" code for processing the prints. The only agency in the area that we were aware of having this "LEA" code as of September 2018 was the City of Tecumseh Police Department located in Lenawee County.

You must have this process complete prior to the first day of the academy and you must retain a copy of the completed RI-030. Failure to do so will prevent you from attending the academy.
